EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE DRAWINGS

The replacement drawings filed June 13, 2008 have been approved.

IN THE ABSTRACT

The legal phrases have been removed from the Abstract. Even though the Abstract is less than 25 lines and one paragraph, the Abstract has been reformatted from the PCT Abstract as follows:

ABSTRACT

The inventive device makes it possible to form protruding parts (18) teeth, spigots, corrugations and the similar on a carrier plate (8) of a brake-lining by introducing a tool into said carrier plate (8) of a brake-lining with the aid of a pressure plate (1) and by removing ~~said~~ the tool from the plate. ~~Said~~ The tool consists of a number of elements (68 to 71) which are displaceable in an opposite direction towards each other and provided with cutting teeth, for example with a saw blade. During formation of protruding parts, the elements (68 to 71) of the tool are displaceable on a plane along two axes, i.e., along the first axis (20) and along the second axis (21) which is perpendicular to the first axis which coincides or is aligned essentially

in a perpendicular direction with respect to the surface of the carrier plate (8) of a brake-lining. The inventive device also comprises forced guiding means which displace the elements (68 to 71) of the tool in the direction of the second axis, are arranged between the pressure plate (1) and the elements (68 to 71) of the tool and ensure a forced motion in the direction of the first axis (20). ~~Said~~ The guiding means also comprise a wedge slider (64) and a guide slider (52) provided with corresponding inclined surfaces (65, 66). A method for simultaneously machining two carrier plates of a brake lining is also disclosed.

IN THE SPECIFICATION

The following sentence has been inserted in the first line of the specification, ---This application is a 371 of PCT/EP04/06462, filed June 16, 2004---

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: One reason for allowance is that the claims are not obvious over the claims of the copending application SN 11/161,235, such application having a common inventor with the present application. In this regard, the claims of SN 11/161,235 are directed to a device having a tool unit with tool elements having cutting teeth where the tool elements are arranged in a fixed position relative to each other in a fan formation in their lengthwise extension. Even though the claims of the present application and the copending application SN 161,235 have common inventors, an obvious double patenting rejection is overcome by the claim changes set out in the Amendment filed June 25, 2008 where the claims now specify the fan formation of the tool elements in conjunction

with the fixed orientation of the tool elements with respect to one another. Furthermore, the arrangement of the tool elements with cutting teeth arranged in a fixed position relative to each other where the cutting teeth are distributed in circular arcs or on elliptical orbits precludes the obviousness of the claims of application SN 10/560,417 over the claims of application SN 11/161,235. It would not have been obvious to have *fixed* the tool elements relative to one another and to have arranged the tool elements in a *fan formation* in their lengthwise extension or distributing the teeth in *circular arcs or on elliptical orbits* in the claimed crimping device of application SN 10/561,417. Furthermore, there are no 35 USC 102 or 35 USC 103 applicable rejections between the claims of the two applications because of the distinguishing features noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
